Friday all day January 20: Dr. Michael Melkers. Target audience: Dentists, Assistants, Hygienists. Presentation: "Nuts and Bolts Treatment Planning-The Triad of Success" 7 C.E.U.s.

Friday Morning: January 20: Dr. Ronni Brown: "Meth Mouth: A State of Decay" Target Audience Dentists, Hygienists and Assistants.

Friday Afternoon: January 20: Dr. James Wood: " Overview of Forensic Dentistry". Target Audience: Dentists, Hygienists and Assistants.

Course 101

For all Registrants 4 C.E.U.'s

Thursday Evening, January 19 "OSHA & Infection Control". Registration and Dinner 4:00–5:00 p.m. Course 5:00-9:00 p.m. Clovis Veteran's Memorial Ballroom. Presenter: Diane Morgan-Arns

Learn how to get a safety plan tailored to your office for OSHA and Infection Control using CDA's Regulatory Compliance Manual and the task of completing it made simple.

Course 102

January 20, Friday, Full Day, "Nuts & Bolts of Treatment Planning – The Triad of Success" 7 C.E.U.'s Target Audience, Dentists

Registration 8:30. Course 9:00 a.m.-4:00 p.m. Presenter: Michael Melkers, DDS

Dr. Melkers is a 1994 graduate of Marquette University School of Dentistry. He practices general dentistry in Spokane, Washington with an emphasis on comprehensive and restorative care. He received his Fellowship in The Academy of General Dentistry in 2003. Dr. Melkers balances his time between private practice, teaching, research and publishing.

Dr. Melkers has presented around the world on occlusion topics, communication and restorative dentistry applicable to the every day and some day practice. He has published Dentistry(PPAD), Compendium, Inside Dentistry, Dental Town Magazine and Collaborative Techniques. He has presented his independent research on bonding and TMJ issues at the American Equilibration Society and the World Congress of Minimally Invasive Dentistry.

This interactive program will explore the triad of progressing with our patients to treatment success.

- Communication
- Treatment Planning Based on our patients' treatment goals that they communicate to us.
- Occlusion – bringing the pieces together for treatment success and longevity.

We will explore foundational concepts as well as actual case application as we blend the concepts of treatment planning and occlusion into restorative success.

Course 103 Morning 9:30 a.m.

Friday Morning, January 20 "Meth Mouth, a State of Decay"
Presenter: Ronnie Brown, DDS 2.5 C.E.U.'s.
Target Audience: Dentists, Hygienists, Assistants
Registration 9:00-9:30 a.m.

Dr. Brown earned her BS, DDS and MPH degrees from UCLA. She is a member of the ADA & CDA as well as the American Public Health Association, American Association of Public Health Dentistry and the Forensic Expert Witness Association.

With the rise of Methamphetamine to epidemic proportions, it is imperative that the dental team understands how to recognize the signs and symptoms of use and how to diagnose "meth mouth". Dr. Brown will lead a dynamic discussion of the practical treatment strategies that can be utilized by the entire dental team and the realistic challenge in treating methamphetamine users.

Course 103 Cont'd Afternoon 1:15 p.m.

Friday Afternoon, January 20 "Overview of Forensic Dentistry"
Presenter: James Wood, DDS 4.5 C.E.U.'s
Target Audience: Dentists, Hygienists, Assistants

Dr. Wood is a Forensic Dental Consultant to the Department of Justice Missing/Unidentified Persons Unit and the Missing Persons DNA Task Force. This course is an overview of forensic dentistry with topics to include forensic dental identification, pattern injuries as they relate to bitemark investigation, dental response in mass disasters and potential dental responses in a bioterrorism incident.
